

MAXTHERM BOILERS

ONE STOP PLACE FOR ALL ENERGY NEEDS

DOMINANT FEATURES SMB - TF - SERIES

- Design as per IBR / BS / ASME / Alloyds
- Three pass fully wet back design
- ◆ Fuel conveyed pneumatically into the furnace from the top, hence flow controllable very efficeiently
- Fuel flexibility for solid / Pulverised Fuels
- **◆ Fully AUTOMATIC operation for Pulverised Fuels**
- High tubulence in furnace for efficient combustion
- Capacity range 1000 kgs/hr to 6000 kgs/hr
- Maximum working pressure range 10.5 / 14.5 / 17.5 / 24.5 kg/sqcm
- Fuel Paddy Husk, Saw Dust, Ground Nut Shell, Pulverised Coal
